Please note that there is no specific diagnosis code for vaping fluid injury within the Patient Administration system. Data has been extracted using a “free text” search. We are therefore only able to provide information on those patients which could be found using this process which will affect overall data quality. The type of fluid is not recorded and we are unable to provide the requested information to the level of detail requested.

**Please note that we are unable to provide the data where there are less than 5 individuals involved, as the disclosure of data could lead to an individual being identified or personal data being disclosed in breach of the Data Protection Act.**
